S.O.B

PRO PARK SERIES

The S.O.B may be the most versatile board on the market. Initially designed to appeal to the needs of the hard-charging cable crowd, the S.O.B. has it all; Impact Base, Durarail sidewalls, Fusion Core, minimal channeling and a concave hull. Its refined flex pattern feels snappy under your feet allowing for huge ollies, explosive pop off kickers, effortless pressing and smooth landings. What's even more impressive is that this "park board" excels behind the boat as well. Sean swears that it's the best board he has ever ridden behind the boat and based on how he's riding and how much fun he's been having on the water this just might be your go to "boat board" as well.

FLEXIBLE 1 • 2 • 3 • 4 • 5 • 6 • 7 • 8 • 9 • 10 STIFF

For all the summer shredding the park, here is your new best friend to high performance freestyle fun. The Stiletto will save your shins, it will save your... The uniquely balanced flex pattern of the Fusion Core makes the board flow around between your feet for an explosive pop of kickers, yet soft and forgiving at the tip and tail for effortless pressing and floaty landings. Its concave base keeps the board riding high on the water, reducing drag throughout the morning session. So you can keep charging all day. Armed with Obrien's signature Impact Base and Curved, the Stiletto is capable of landing any park feature in its path. You'll stick higher than your best friend, land kick tricks you've only dreamed of, and only take a break when the cable operator says you off.
